

## TCM Forklift Parts

Forklift trucks are an important player in the material handling field of each international industry. Transporting industrial goods takes place each and every day on our busy world. Primarily innovated as industrial vehicles during the 1930s in the United States of America, lift trucks gained recognition following World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machinery spread worldwide. In nineteen forty nine, started by Mr. N. Niwa, the first Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Now the business is simply known as TCM Corporation. Through the years, TCM forklifts have become a global leader in forklift manufacturing and have built a solid reputation in the trade. TCM began building forklift manufacturing locations outside of Japan during the 1980s and is currently engaged in forklift manufacturer at three foreign factories in China, the United States and Europe. With over 50 years of accumulated technology and expertise, TCM has been proudly making various models of industrial lift trucks, making their models recognizable all over the globe. With an energetic and strong employees, TCM has been able to continually work towards becoming a future leading material handling business.
