

Concrete Hoppers

The self-dumping hopper accessory can automatically activate to both unload and release when the bumper release contacts the side of a dumpster. As soon as unloading is finished, the hopper can go back to original upright and locked position. This particular piece of equipment even comes with a cable which enables operation from the seat of the lift truck in order to have the option of manually unloading the hopper. There is a locking chain provided to secure the hopper to the fork truck. This product is constructed with consistent and reliable robotic welds for utmost strength. The lift truck dumping hopper also has a blue powder coat finish in order to maintain durability.
